Christy Kirsch, M.A., FAAA, Karen Scott, M.A. FAAA  
Jacqué Carr, Licensed Dispenser

Karen Scott, Christy Kirsch (both audiologists), and Jacque Carr have a combined 57 years of fitting hearing aids. This means that the scientific/technological advances in today's hearing aids are enhanced by our experience level. "State of the art" hearing aids can shine only when properly fit to meet your needs. And that's what we do. The audiology part of our business is something else. For instance, we see the newborn children who fail their hearing tests at the hospital. We see you father after a sudden loss of hearing.

Our tests are medically diagnostic and go beyond the ordinary. We're hearing specialists. Our results are relied on by doctors, UCLA, and the House Clinic. And you can rely on us too. Serving you, your parents, and your children since 1978.

*"Helping you hear the things you love."*
